I spent my 20th Salkehatchie with 5 wonderful students from Saint Paul UMC.

Camille, Charlie, and Collins worked on a ladies house where they repair the steepest roof that Salkehatchie has ever offered up. They replaced shingles and improved ventilation giving the house extra years to be lived in. In addition to the roof, lots of yard work was done to make space for a brand new porch their group built from scratch. The students on this site also enjoyed spending time with the homeowner's grandchildren. They even showered the kids with gifts of dinosaurs and soccer balls at the end of the week.

Karsyn, Wesley, and I worked on a gentleman's home in Pelzer that had fire and smoke damage. Their team did a complete remodel of the kitchen, and bathroom; while the living room and main bedroom got new ceilings, laminate flooring, and painted. The home was also wrapped up in vinyl siding replacing the non effective Masonite siding.

If you want before and after pics and the full scoop of the week, join us at 11 o'clock on September 8th!
